### Context

**Practical Placement** is a second semester course worth 6 ECTS that is part of the Complementary Module of the Master's degree. It consists of 148 hours during which the student carries out tasks either at a private firm or at a public office related to the tourism sector. The objective of the placement is the practical and integrated application of the contents of the Master's courses taught at UIB, such that the student acquires practical competencies and skills that facilitate the incorporation in the labour market. Due to this focus, the placements are called **Curricular Placements**.

The tasks developed in the company or public office are carried out under the supervision of a **Placement Supervisor at the workplace** and the **Placements Coordinator at the UIB**. Besides, a professor of the master will act as **Academic Tutor** having in charge the supervision and assesment of the task and final report from the academic focus. At the end of the placement, the student has to prepare a Placement Report to hand-in within the agreed deadline. This report should be reviewed by the **Placement Supervisor** at the workplace and handed-in to the **Academic Tutor** that will assess it.

To assign a company for the placements, the student has to contact the **Placements Coordinator at the UIB** in order to find an adequate option that will be supervised by the **Academic Tutor**. At the beginning of the academic year, students will find in Aula Digital the tentative list of companies with curricular placements agreement with the UIB for this specific master.

There is the possibility to do Extra-curricular Placements following a process administered by the Career Guidance Services (DOIP: Department de Orientació i Inserció Professional). If this is the case, the student, once the placements has finished, has to ask for the recognition of the 6 ECTS corresponding to the placements following the instructions of the **Postgraduate Studies Center (CEP)**.

For all pathways students are required to:

## Syllabus

- 1) Obtain 50% of the ECTS required for the Master's degree before starting the placement.
- 2) Obtain the approval of the Academic Tutor before starting the placement.
- 3) Hand in a Placement Report at the end of the placement period.
- 4) Additionally, for all placements in Spain students are required to provide evidence of knowledge of Spanish at the B2 level.

All placements will be undertaken between March and August.

## Content

### Range of topics

#### Part I. Placements in the workplace

To develop supervised tasks in a company or public office (148 hours )

#### Part II. Practical Placement Report

To write a report describing the company and the specific tasks developed during the placement relating them with the knowledge acquired in the master's courses.

To write the report students should use the Practical Placement Report Form provided in Aula Digital and follow all the instructions given in the Instruction Sheet. The Practical Placement Report has specific characteristics that make it different from other written work carried out in the Master's degree, but all the rules and regulations about Plagiarism also apply to it. For this reason, before starting the report students should make sure they are aware of all these rules and regulations at UIB.

The Practical Placement Report should have the following sections:

- A) Cover Page to be signed by the Practical Placement Supervisor .
- B) Index of Contents
- C) Index of Tables and Figures
- D) Introduction
- E) Brief Description of the Company/Organization

This section should present the main activities/objectives/aims of the company/organization, how it is structured, and how it contributes to the tourism sector, paying special attention to sustainability and competitiveness issues.

#### F) Detailed Description of the Activities Carried Out During the Practical Placement

This section should contain an explanation of the main activities/objectives/aims of the Practical Placement, how they developed during the period spent at the workplace and how they related to the tourism sector. Students should show how the knowledge acquired in the Master's courses is related with the developed tasks and what skills and competencies they have acquired at the workplace and will contribute to their future professional development, including problem-solving skills and issues they had to deal with.

#### G) Global Assessment of the Practical Placement

This section should contain a reflective assessment of the Practical Placement, which includes discussing how it contributed to acquire new competencies and develop existing ones, as well as how students will be able to apply those competencies to the tourism sector.

The total word count should be between 2500-3000 words. The main text should be presented using Arial 12 with at least 1.15 paragraph spacing and justified paragraphs. If following the
